TEMPO
DIALING INSTRUCTIONS

IF YOUR TELEPHONE NUMBER PREFIX IS
227, 275, 295, 325, 404, 433, 602, 604, 607, 685, 696, 735, 761, 764, 767 OR 782
YOUR DIALING PROCEDURES ARE

- Use 7-digit dialing to call other users in the DoD in the NCR. (5-digit dialing is no longer available after September 3, 1994)
- Initiate all local, toll and international calls (including 911 emergency calls where applicable) by dialing "99" (NOT "9") and then the number.
- Initiate all Defense Switched Network (formerly AUTOVON) calls by dialing "94" (NOT "8") and then the number.
- Continue to dial "0" to reach the Pentagon Operators.

If additional assistance is required, please follow your local policy or contact your Telecommunications Service Control Officer.

TEMPO TROUBLE 703-693-2202

PLANNED DATES FOR FUTURE CONVERSIONS ARE:

6 MAY 1995 FOR PREFIX 394, 238 AND 436

10 JUNE 1995 FOR 355

FORT BELVOIR DIALING
ON SITE

A three digit code (10X) will be utilized to access all on-site special services, i.e. fire, ambulance, etc. The following assignments will be used:

103	Local Information	106	Ambulance
104	Police	107	Fire
105	Emergency-DEH Service Order Desk	108	Aircraft Disaster/Range Control
		109	Telephone Repair

Access to On-Site Special Services will be available for off-site dialing by dialing 805 followed by "1" plus the three digit assignment listed above (i.e. 805-1107 for the Fire Department). These On-Site services may be accessed by on-site users either by dialing the complete 7-digit code (805-110X) or by dialing only the last three digits as shown above.

OFF-SITE DIALING SAME AS TEMPO

THIS BOOK MAY BE RECYCLED

GENERAL INFORMATION

USE OF OFFICIAL TELEPHONES FOR PERSONAL BUSINESS

Telephones are not to be used by employees for personal messages except in case of emergency. Use pay stations located in convenient places in all buildings. Managers are expected to cooperate in securing strict observance of this instruction and each person having a telephone on his or her desk is responsible for its proper use.

LOCAL CALLING WITHIN THE DEPARTMENT OF DEFENSE

Be sure you have the correct number in mind. Consult the directory. Listen for dial tone and then dial the number.

614—692—693—695—697

When calling from one of the above exchanges to another one of the above exchanges dial only the last 5 digits of the number.

When calling from one of the above exchanges to an entirely different exchange in the Metropolitan Area not listed above, dial 9 and listen for dial tone*, then dial area code and 7 digits.

*(This dial tone will be continuous and will sound the same as the original dial tone. Please continue dialing).

INTERAGENCY CALLS

See "Other Government Agencies" Section for Agencies with Centrex.

1. To place a call to a government agency which has Centrex, dial "9" plus area code and 7 digit direct-in-dialing station number. If the desired direct-in-dialing station number is not known, refer to the "Other Government Agencies" section of this directory for the Centrex information number or refer to the Telephone Company directory for the listed number of the desired Agency.
2. Calls to other government agencies with Centrex are made at no extra cost.
3. Calls to other government agencies without Centrex cannot be made from restricted telephones.

CALLS TO OUTSIDE LOCAL NUMBERS FROM UNRESTRICTED TELEPHONES

Dial 9. Dial the desired number. Employees are reminded that telephones are to be used for Official business only. A charge is applied to all outside calls, except when calling government Centrex.

DEFENSE SWITCHED NETWORK (DSN) (Formerly—AUTOVON)

Numbers listed in this directory are **not** DSN

The Defense Switched Network (DSN) is the basic General Purpose switched voice network of the Defense Communications System. DSN serves most major installations in CONUS and limited overseas areas. To avoid abuse of the Network and derive maximum efficiency, users must be familiar with the system and cooperate fully. You can assist by following these guidelines.

Consult the DSN listings in this directory or dial "O" for up-to-date information.

Send a message instead. Use DSN only when your communication requires a time sensitive reply.

Restricted lines cannot be used to place calls.

Don't use DSN for unofficial business. Unless the communication is official and essential and would stand the scrutiny afforded a commercial toll call, DSN should not be used.

Keep the call short. Policy on DSN use states that calls should be no more than approximately 5 minutes in duration. Outline your communication prior to making a call and then limit it to 5 minutes. If you are seeking information which is not readily available, ask the party on the other end to call back.

Avoid system saturation. Most DSN calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster with less preemption in the early morning or late afternoon when there is less competition for circuits. For DSN access (CONUS only) Dial "8" listen for dial tone, then DSN number.

DSN access to overseas is not available through the DTS—W system. Overseas calls must be placed through the appropriate military switchboard serving your activity or by commercial means.

If you reach a busy signal (60 IPMS) on the number called, hang up and redial. If you reach a fast busy signal (120 IPMS), this indicates that the local or network equipment is busy. Hang up, try again later.

Preemption—your call was cut off by a higher precedence call. Hang up and dial again.

Provide callers with your proper prefix for the DSN calls. Washington area numbers listed in this directory are not DSN numbers. See page 15 for cross-reference information.

LONG DISTANCE TELEPHONE CALLS

For calls within CONUS and to Hawaii, Puerto Rico, and the U.S. Virgin Islands.

Facilities are maintained within the Department of Defense for the most economical and efficient placing of long distance calls. To keep costs at a minimum, military departments must ensure that only official calls of short duration be made over the Department of Defense facilities.

1. Applies to calls from *Unrestricted* telephone numbers only.
2. To place an official long distance call, dial 9 plus 1 plus the Area Code and telephone number desired.
3. Avoid system saturation. Most Long Distance calls from the DC area are attempted in the middle of the morning or afternoon. When this happens there simply are not enough circuits to handle every call. Attempt to place calls throughout the day. Many calls are completed faster in the early morning or late afternoon when there is less competition for circuits.
4. If a "circuits busy" recording is encountered, hang up and try your call later.
5. If the call is of such urgency that delays cannot be tolerated, dial the Defense operator ("O") and tell her/him of the circuit busy condition and request her/his assistance.
6. For any trouble encountered when calling long-distance, report the trouble to the DoD operator on 545-6700 or autovon 227-0101.
7. Agencies will be provided a monthly statement of long distance usage which will include calling number, date, time connected, length of call (in minutes), cost of the call, the state, and telephone number called.
8. Long Distance Information (1 + Area Code + 555-1212) may be dialed directly from unrestricted telephones. However, there is a premium charge for such calls and each call will be reflected on the monthly Telephone Usage Report.
9. Calls to Area Code "800" may be dialed direct from any DoD telephone. Calls to Area Code "800" are not billed to the telephone placing the call. However, details of Area Code "800" calls will be reflected on the monthly Telephone Usage Report.
10. Refer to page 6 for Area Code numbers most frequently called.

CONFERENCE CALLS

1. Conference Calls established for DTS-W Telephone Users via the DoD Operator can consist of a maximum of twenty-two parties local, CONUS Long Distance and/or Overseas.
2. Conference Calls established for DTS-W via the "Meet Me" feature can consist of a maximum of twenty eight parties, Local, CONUS Long Distance and/or Overseas. The "Meet Me" feature allows conferees to dial directly into the conference automatically at a pre-determined time without operator assistance.
3. To arrange a conference call, dial "O", ask for the DoD Conference Operator and provide the following information:
   a. Your Name—DoD Telephone Number—DoD Agency.
   b. Date/Time/Approximate duration of conference.
   c. Names/Area Code + 7 digit numbers of conference parties.
   d. Whether the teleconference will be operator-assisted or dialed direct ("Meet Me").
   e. DoD Telephone Number to be billed (if operator assisted).
4. Since the DSN network has lines conditioned for preemption, its use on the conference system is discouraged.
5. Conference Call Checklist.
   a. Before the teleconference, the meeting leader should send each participant the following:
      Time/Zone and location of teleconference.
      Agenda.
      Visuals, Charts, Graphs.
      List of Participants.
   b. The leader should contact all participants and arrange for each participant or a proxy to answer the telephone at the pre-determined time.

c. During the teleconference, the leader should:
   Announce the agenda.
   Have participants introduce themselves.
   Establish speaking order.
d. Avoid use of extension telephone.

DOD OFFICIAL TELEPHONE CREDIT CARD USERS

Telephone credit cards are intended for official use when authorized credit card holders are away from their permanent duty stations and have a requirement to place an official call.

Credit cards will not be used by DoD officials to make calls from their permanent duty station.

PERSONAL CREDIT CARD DIALING INSTRUCTIONS

Effective immediately, personal credit card calls may be dialed direct from any unrestricted telephone line served by any DoD Centrex Central Ofc in the National Capital Region. To place a personal credit card call you must first know your long distance carrier's direct dial access code. For example, AT&T's direct dial access code is 10+288. To reach the AT&T long distance network the user must dial as follows: 9+10+288+0+area code+local number. At the tone enter your personal credit card number. You will be billed directly by your long distance carrier for all calls placed via your personal credit card.

TRANSFERRING CALLS*

IMPORTANT: To transfer a call, signal operator by pressing switch hook firmly ONCE.

You can transfer any incoming long distance or direct in-dialing call by signalling the operator. This transfer cannot be made if more than one telephone is open on the line attempting the transfer. Calls made to you from within the same exchange cannot be transferred.

*NOTE: Telephone users with Electronic custom calling features. See instructions below.

CUSTOM CALLING FEATURES

"TRANSFERRING CALLS"

- Depress switchhook once.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Announce call.
- Hang up.**

"THREE WAY CONFERENCE" CALLS

- Depress switchhook.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Depress switchhook once—three way connection established.**

"CONSULTATION HOLD" CALLS

- Depress switchhook once.
- Listen for dial tone.
- Dial desired station.
- Station answers.
- Consult with third party.
- Third party hangs up.
- Depress switchhook twice.
- Original call restored.**

**For "Transferring" Calls, "Three Way Conference" Calls, "Consultation Hold" Calls, if the called party fails to answer or station is busy—depress the switchhook twice—you will be reconnected to the original party.

MONITORING OF TELEPHONE CALLS

There will be no regular monitoring of telephone calls. In exceptional cases, where monitoring of a specific telephone call is requested by one of the parties, all parties to the conversation must be made aware that the call is being monitored.

Personnel must be informed that no calls will be monitored without explicit affirmative instructions for each specific call.

REQUISITIONING TELECOMMUNICATIONS SERVICES AND EQUIPMENT

To request telecommunications service or equipment in the National Capital Region contact your agency's Telecommunications Service Control Officer, or if not known, call the Defense Telecommunications Service—Washington (Technical Services Division) on 703-614-0150.

TELEPHONE DIRECTORIES

DD Forms 218 and 218-1 ("Telephone Directory Listings") must be completed by the requesting agency and forwarded to Defense Telecommunications Service in order that directory and operator listings can be updated. DD Forms 218 and 218-1 must be submitted as changes occur. New, changed or deletion information will be provided to the DoD information operators soon after receipt from agencies.

MINIMIZE

MINIMIZE is a procedure used during periods of crisis or other abnormal periods to reduce the volume of record and long distance telephone traffic ordinarily transmitted electrically.

MINIMIZE applies to ALL users of DOD communications systems, including originators of card and tape traffic.

Procedures. When MINIMIZE is imposed, users of DOD electrical communications facilities must determine that:

1. The information to be forwarded is required to avoid a seriously detrimental impact on mission accomplishment or safety of life.

2. Electrical transmission is the only way to get the information to the addressee in sufficient time to accomplish its purpose.

Alternate Means of Communications. The US mail, the US Defense Courier Service, or an individual as a courier or messenger should be used instead of using electrical means when MINIMIZE is imposed.

Authority to Impose and Cancel MINIMIZE. Commanders are authorized to impose MINIMIZE within their command or area of command responsibility unless specifically denied by appropriate higher authority. The Joint Chiefs of Staff impose it worldwide as well as in any specific area. The Joint Chiefs of Staff or the commander concerned, as appropriate, will cancel MINIMIZE when no longer required.

Authority. Allied Communications Publication (ACP) 121 US Supplement-1.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM (JUTCPS)

GENERAL INSTRUCTIONS

1. Joint Uniform Telephone Communications Precedence System which became effective 14 February 1970, is directed for use by all authorized users of the voice communications facilities of the Department of Defense. Since the effectiveness of the system depends upon cooperation on the part of persons authorized to employ it, users must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Each authorized user should consider whether a call requires special precedence and exercise care not to request or utilize one higher than the circumstances require.

2. The JUTCPS does not make specific provisions for the conduct of test and exercise calls. Those activities or individuals authorized or required to conduct such tests and exercises will employ precedences consistent with the nature of the test or exercise, and upon contacting the called party will identify the call as a FLASH test call, IMMEDIATE test call, or PRIORITY test call.

3. Calls of a given precedence will not normally pre-empt calls of an equal precedence. However, calls originated by the President of the United States, Secretary of Defense and Joint Chiefs of Staff can pre-empt FLASH calls in progress by application of their FLASH OVERRIDE capability. In addition, commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency and CINCNORAD when declaring-either Defense Condition One or Air Defense Emergency may also pre-empt FLASH calls in progress by application of the FLASH OVERRIDE capability.

4. The precedence indicators listed on the following page are directed for joint use and specify, by military precedence designator, the relative order in which telephone calls should be handled based on the importance (content) of the call.

JOINT UNIFORM TELEPHONE COMMUNICATIONS PRECEDENCE SYSTEM CHART

MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
FLASH	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) The President of the United States, Secretary of Defense and Joint Chiefs of Staff; (2) Commanders of unified and specified commands when declaring either Defense Condition One or Defense Emergency; (3) CINCNORAD when declaring either Defense Condition One or Air Defense Emergency and other national authorities as the President may authorize.	Flash precedence is reserved generally for telephone calls pertaining to: (1) Command and control of military forces essential to defense and retaliation; (2) Critical intelligence essential to national survival; (3) Conduct of diplomatic negotiations critical to the arresting or limiting of hostilities; (4) Dissemination of critical civil alert information essential to national survival; (5) Continuity of Federal Government functions essential to national survival; (6) Fulfillment of critical United States internal security functions essential to national survival; (7) Catastrophic events of national or international significance.
IMMEDIATE	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Immediate precedence is reserved generally for telephone calls pertaining to: (1) Situations which gravely affect the security of national and allied forces; (2) Reconstitution of forces in a post-attack period; (3) Intelligence essential to national security; (4) Conduct of diplomatic negotiations to reduce or limit the threat of war; (5) Implementation of Federal Government actions essential to national survival; (6) Situations which gravely affect the internal security of the United States; (7) Civil Defense actions concerning direction of our population and their survival; (8) Disasters or events of extensive seriousness having an immediate and detrimental effect on the welfare of the population; (9) Vital information having an immediate effect on aircraft, spacecraft, or missile operations.
PRIORITY	Has precedence over any other telephonic call of lower precedence. Pre-empts lower precedence calls.	Priority precedence is reserved generally for telephone calls requiring expeditious action by called parties and/or furnishing essential information for the conduct of government operations.
ROUTINE	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine precedence designation applies to those official government communications which require rapid transmission by telephonic means but do not require preferential handling.

DID YOU KNOW ? ? ?

that DEFENSE TELECOMMUNICATIONS SERVICE—WASHINGTON manages and provides communications equipment and services to Army, Navy, Air Force, and Defense activities in the Washington Metropolitan Area.

Questions? Require assistance? Need technical support?

Call us at the following numbers:

BILLING AND SERVICE ORDERS: 703-695-9111

INTERNATIONAL DIRECT DISTANCE DIALING (IDDD)

1. ALL — — — DOD TELEPHONE EXCHANGES ARE EQUIPPED FOR INTERNATIONAL DIRECT DISTANCE DIALING.
   (This Applies to UNRESTRICTED Telephone Numbers only)
2. TO PLACE AN OFFICIAL INTERNATIONAL CALL, DIAL
   9 + 011 + COUNTRY CODE + CITY CODE + LOCAL NUMBER.
3. THE IDDD COUNTRY AND CITY CODES ARE LISTED BELOW.
4. FOR COLLECT AND CREDIT CARDS CALLS, DIAL 9 + 01 + COUNTRY CODE + CITY CODE + LOCAL NUMBER.
5. SEE INTERNATIONAL TIME ZONE MAP ON PAGE 14.
6. EXCEPT (437) CONNECT TO 9-0-0

IDDD Troubles Reporting Procedure
Before reporting troubles encountered when dialing IDDD, consider the following steps:
A. Dial the number again.
B. If you encounter a "regular busy signal" after dialing all IDDD access digits, the number you dialed is most likely busy. Dial the number again at a later time.
C. If you encounter a "fast busy signal" after dialing all of the IDDD access digits, this is an indication that all international circuits are busy. Dial the number again at a later time.
D. If you encounter a "recording" after dialing all of the IDDD access digits, check the following:
1. If the number you are calling from is class of service marked for Direct Dial Long Distance (DDLD). If the line is not class of service marked for DDLD, then the line is also not capable of accessing/dialing IDDD. Use another line that has a DDLD access to make your IDDD calls.
2. If the number you are calling from has DDLD capabilities, report this trouble to the DoD Operators at commercial 545-6700 or VON 227-0101.
E. If you encounter "busy signal" or "recording" after dialing "9 + 011," this trouble should also be reported to the DoD Operators at commercial 545-6700 or VON 227-0101.

OTHER GOVERNMENT AGENCIES

(C) denotes agencies with Centrex telephone service. These agencies can be called, without charge, from any DOD Centrex telephone. Agencies without (C) designator can only be called by unrestricted DOD telephones. A charge is applied for calls made from the DOD to agencies that do not have Centrex.
